DELIVER

04

WHY
CHOOSE US

1. ABOUT US

S7 Construction Limited is a real estate and construction company registered with the Contractors Registration Board (CRB) as a Class 2 Contractor for Building and Electrical.

We deliver building and electrical projects with a focus on quality, cost efficiency, and durable outcomes for clients in Tanzania.

OUR STORY

As a CRB Class 2 contractor for Building and Electrical, we focus on:

- Real estate development.
- Construction of irrigation dams.
- Sports fields construction, including football stadiums and pitches, golf course construction and renovations, basketball courts, running tracks, and swimming pools.

With a commitment to excellence and innovation, we partner with organizations to achieve their strategic goals and drive sustainable growth.

We own a fleet of modern construction equipment that makes construction work quicker and more affordable.

1. ABOUT US Cont...

OUR MISSION

To deliver world-class construction services that are affordable, durable, and environmentally friendly.

OUR VISION

To be the builder of choice based on innovation, cost efficiency, and durability.

OUR CORE VALUES

Passion

Dedication across every stage of design and delivery.

Integrity

Honest communication and accountable project governance.

Commitment

Relentless focus on quality, timelines, and client outcomes.

2. WHAT WE DELIVER

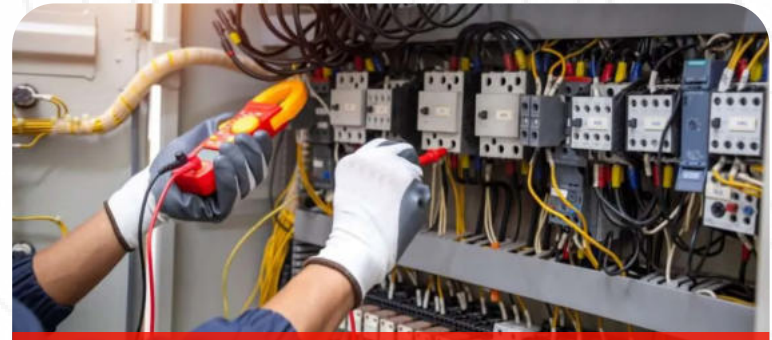

CORE SERVICE LINES

Four pillars define what we deliver on site and in the field, each with specialist disciplines you can engage as standalone scopes or as part of a turnkey programme.

BUILDING

We plan and deliver residential and commercial buildings, plus dam and civil structures where water retention and earthworks matter. Every project is engineered for durability and compliance with local standards.

ELECTRICAL

Our electrical scope covers solar systems, generator supply and commissioning, structured wiring for new and retrofit sites, and the electrical equipment you need to power operations safely and reliably.

2. WHAT WE DELIVER Cont...

SPORTS FACILITIES

We build and refurbish sports environments including swimming pools, golf features, soccer pitches, and basketball and netball courts, designed for playability, drainage, and seasons of heavy use.

EQUIPMENT RENTALS

When your programme needs extra capacity, we rent construction equipment so crews can stay productive without tying up capital in machines that sit idle between phases.

2. WHAT WE DELIVER Cont...

BUILDING MATERIALS SUPPLY

We supply essential construction inputs including cement bricks, clay red bricks, interlocking bricks, aggregates, and sands-plus finishing materials and electrical equipment, so you can source reliably and keep work moving.

FARM CLEARING

We clear and prepare land for agricultural activities, opening up workable fields with safe access and practical site preparation that supports efficient cultivation and long-term use.

3. STRATEGY & CAPABILITIES

STRATEGY - BUSINESS SCOPE

How we position S7 in the market, from geography and customer mix to insight-led planning and go-to-market motion.

Geographic markets

Our target geographic markets include both domestic and international regions. In the domestic market, we focus on major urban centers with high consumer demand. Internationally, we target emerging economies with growing middle-class populations.

Customer segments

Our customer segments cover a wide range. It includes individual consumers who seek quality products for personal use, small and medium-sized enterprises looking for reliable business solutions, and large corporations in need of customized services.

Market and analysis

Through in-depth market research, we analyze the demand trends. We study consumer behavior, purchasing power, and industry growth rates. We identify the key factors driving demand, such as technological advancements and changing lifestyles.

Market penetration strategies

Our market penetration strategies involve a multi-pronged approach. We offer promotional campaigns to attract new customers. Strategic partnerships with local distributors help us expand our reach.

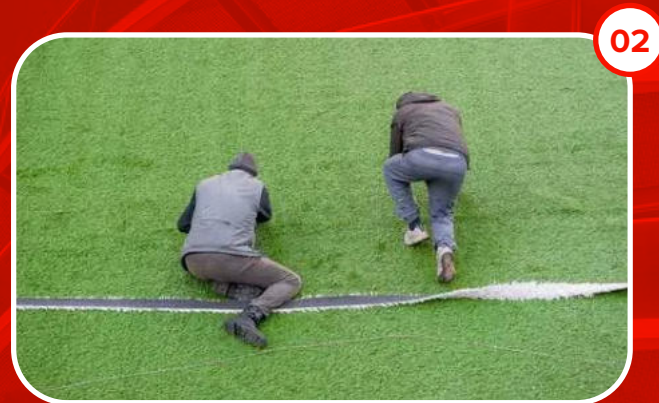

3. STRATEGY & CAPABILITIES Cont...

CAPABILITIES IN DETAIL

Commercial & Residential Construction

We build both residential and commercial properties using locally available materials. Our costs are very competitive due to the use of modern technology and modern building methods. Our pre-cast concrete technology is one of the best in the market since it allows us to complete a residential house or a school classroom in 21 days only.

Construction & Maintenance Of Sports Fields

We construct modern sports facilities including soccer pitches using both natural grass and artificial turf. We own modern mobile irrigation systems that can be used to maintain sports fields throughout the year. We build and we renovate. If you are thinking of sports fields, home swimming pools, golf courses, sports arenas, S7 Construction is your solution.

3. STRATEGY & CAPABILITIES Cont...

Construction Of Farm Dams

We construct farm dams and install irrigation systems. We use modern technology and strong liners to ensure good quality and durability.

Interior design

We design interiors and deliver 3D layouts for any project. We have a team of interior designers and we help clients source interior furniture from suppliers worldwide.

Construction of grain storage

We construct grain storage in both godown and silo configurations. We have a strong team of competent engineers who can deliver the project in rural areas.

Electrical

Whether you are looking for electrical wiring, installation of solar systems, or supply of generators and electrical equipment, S7 Construction is your solution. We also supply generators, field vehicles, and tower lights for rentals.

4. WHY CHOOSE US

01

Certified Class 2 Contractor

02

Experienced leadership team

03

Modern equipment fleet

04

Cost-effective solutions

05

Commitment to quality & sustainability

06

Multi-sector expertise (real estate, electrical, sports facilities)
